Also: Benchmark Papers in Genetics: Vol. 6. Cytogenetics. R. L. Phillips and C. R. Burnham (Editors) Dowden, Hutchinson and Ross, Stroudsburg, Pa. 1977.

Papers in seven groups: I. Chromosome individuality, morphology, structure and number; II. Chromosome replication; III. Chromosome pairing; IV. Crossing-over; V. Chromosome function; VI. Chromosome behavior; VII. Genetical and cytological mapping. Includes "Historical Perspectives" for each group and Editors' comments on the papers.

Preparation of an index

Spiker, Sina K. 1963. *Indexing Your Book: A Practical Guide for Authors*. 2nd Ed. \$1.25. Univ. of Wis. Press.

The method shown, by not using index cards, transforms an almost unmanageable job into an enjoyable one and a useable index.
